

Don't waste water and money...

Enjoy feeling good with power blue...

Did you know that between 10 and 17 liters of water flow out of an unregulated tap, depending on the water pressure?

The diagram shows how the Power Blue limits the water flow to a maximum of 6 liters when the tap is already opened one quarter. This quantity remains the same, whether you open the tap further or not.

Reduce your water consumption by 40% to 60%

With a strong and pleasant flow of water, you won't notice the difference, that you are only using half as much water

- ▶ Power Blue fit on all standard taps, and you can attach them quickly and easily...
- ▶ Power Blue has been produced in an ecological way in Scandinavia, this means quality workmanship, long-lasting products and high standard..

Water usage in liters per minute		With power blue	Unregulated	Reduction With power blue
Tap		4-8	10-17	40-65%
Shower		8-12	18-25	40-70%

Our products pay for themselves in just 2 months!

Power Blue flow regulators and Aerators with pressure compensation offer the best comfort for an affordable price
